

Your wedding day is one of the most important events in your life! We understand that it can be confusing to shop for a wedding photographer. To make your life easier, we offer you several options so that you get the best quality of service and value in your wedding experience.

In order to provide you with the right solution for your wedding day, we have designed our packages around two types of weddings: Long (more than 5 hours, two locations), and Short (5 or less hours, one location).

We are professional photographers. We use high quality cameras, lenses and lighting, and utilize 100% digital capture, edit and print processes. *We edit every image before you see it, regardless of whether you order a digital or print package.* We offer free online proofing using password-protected web albums for you, your out-of-town guests and relatives. We use only the best professional printing labs, and routinely attend seminars and conventions to keep our skills sharp and contemporary.

You can see that we do much more than “shoot and burn!” Over the years, we have printed thousands of images and have a reputation for our creative photography, editing and printing. We routinely produce books, canvas works, specialty items and multimedia slide shows for our customers. Check out our reviews for input from some of our customers!

We know that we are not the lowest price photographer in town. We deliver superior products, backed by years of experience and many, many satisfied customers. We work a limited number of weddings each year, and focus on clean, artistic and creative imagery and products, just for you!

**Here are a few questions that may help you narrow down your photography needs:**

1. Is your wedding short or long (5 hours)? One location or more?
2. What type of album or wedding book would you like for your wedding memories?
3. Are you interested in prints, slide shows or engagement sessions?
4. Would you rather pick out your print options individually, or choose from a package?
5. Are you interested in having the digital image files from your wedding?

**All of our wedding packages are priced based on your wedding plans:**

Short Weddings – 5 or less hours with the ceremony and reception at the same location  
Long Weddings – either more than 5 hours, or more than one location. These generally include morning-of hair and makeup, through end of reception.

The prices listed include day-of wedding photography, image editing, online proofing and other products listed in the packages.

## Wedding Packages – Album Packages

Albums differ from books in that they feature a square design and rigid pages. Our albums are produced by one of the best labs in the country, and incorporate a professional design firm for a unique layout. We offer a huge range of cover materials, and feature photographic covers. You will receive an amazing album to preserve your wedding memories.

### Why choose a Wedding Album package?

Albums are very traditional. Featuring a square layout and incredible full-panoramic spreads, the album is solid, substantial and visually impressive. ## Wedding Packages – Book Packages

Physically smaller than traditional albums, *wedding books* feature interesting sizes, solid covers and thick pages with a lay-flat design. We use the same printers and designers for our books and albums, so you are guaranteed a great quality product. We have the same cover materials available, and offer both name imprinting and photographic covers. Your hand-designed and custom-printed wedding book is certain to stay on your coffee table and attract attention!

### Why choose a Wedding Book package?

Wedding books are more contemporary, and are a bit more affordable than albums. They are smaller and lighter, and have “coffee table” appeal. You can still choose your covers and other options with books, but the sizes will be based on paper size (8x10/11x14), as opposed to square sizes (10x10, 12x12), used for Wedding Albums. Note also that mini books are not available in the books.

## Our Booking Policy

We receive many inquiries for our wedding services. While we would like to accommodate every couple, we only work one wedding each weekend. If you ask about our availability, we will tell you whether anyone has committed that date to us. But there is a chance that someone else may book it shortly thereafter.

In order to be fair to all potential customers, our policy is that we commit the date to the first couple who commits to us with their deposit. So if you are shopping around for a photographer, you may lose the opportunity for us to become ***your wedding photographer*** if you delay in making your decision.

### Payment considerations for all wedding packages and options:

- A non-refundable reservation fee of \$300 is required to hold the date and lock the pricing.
- Balance of package/option is due in full within 30 days of the wedding.
- Cash, check and credit/debit card payments are accepted.
- Add-ons for any packages can be ordered after the wedding.
- A contract will be signed by Bride, Groom and us to solidify the agreement.
